PROFILE SUMMARY

I am going to develop end-to-end solutions that meet business requirements and exceed customer expectations. I am a team player who excels in collaborative environments and enjoys working with cross-functional teams.

If you are looking for a .NET Developer who can deliver high-quality results, please don't hesitate to contact me.

EXPERIENCE

.NET Assistant Teacher

Najot Ta'lim

📅 Sep 2023 – Ongoing   📍 Tashkent , Uzbekistan

- I am currently working as a Mentor at the 'Najot Ta'lim' Information Technology Center, where my role involves mentoring and facilitating learning. This position aligns well for communication and teaching skills, allowing me to enhance my knowledge and contribute effectively to the learning environment.

Backend Developer

Korea Development Bank

📅 May 2023 – June 2023   📍 Tashkent , Uzbekistan

- I gained new skills in C/C++, Oracle and Banking during my time as a Backend Developer at Korea Development Bank.

.NET Developer

Tarteeb.uz

📅 Feb 2023 – May 2023   📍 Tashkent , Uzbekistan

- One of the most important areas I have been focusing on is "The Standard" architecture, which has enabled me to build robust and scalable software that meets the highest standards of quality and reliability.
- Together with the CashOverflow team, the CashOverflow website was built based on "The Standard" architecture.
- We used Test-Driven Development (TDD) to build a project called "CashOverFlow", which helps developers who want to work in the industry in Central Asia to access important information.
- I have gained experience in our team on Teamwork, proficient use of Version Control Systems (VCS), continuous integration/continuous deployment(CI/CD) processes and Unit Testing.
- Link:Cash Overflow
- Additionally, I have been working closely with the Tarteeb team to collaborate effectively and ensure that we are all on the same page when it comes to project goals and timelines.

MOST PROUD OF

🏆 **Our team**
<Our Youtube channel>
We have gathered such a team that unites young programmers in the field of IT and shares knowledge. We share knowledge in the form of video lessons.

📈 **Algorithm**
<My leetcode account>
Learning new algorithmic solvings is my hobby. I am developing my agorithmic skills in LeetCode platform.

STRENGTHS

C#   OOP   MSSQL SERVER   ADO.NET
